Narrative

I left my car parked in front of 3234 16th St. and grabbed something to eat across the street at the Pizza shop. I was there from 9:30pm to just after 10:15pm on 1/20/20. In that time, someone broke into my rental vehicle (from Hertz) and stole from the trunk the following items: my backpack that had a laptop and personal items; a large Pelican case with wheels that contained brand new ZEISS Supreme Prime Radiance lenses; a small Pelican case with a 7" HDMI recorder/monitor and some accessories.

I tried to see if the Body Modification and Piercing shop located at 3234 16th St. had a working camera on the outside of their shop, the but the owner confirmed the exterior camera is non operational, so he does not have any footage.

Incident Description

A worker from the Ramen Noodle Shop next door says she saw some man peeing and loitering around my car when she was on a smoke break sometime between 9:30pm and 10pm. She felt he was suspicious but did not see him do anything. I believe the theft occurred after she had returned inside to the restaurant.

There were no other witnesses I could find in the area. The street had a few people but not many walking around at that time. It was pretty quiet.

When I first noticed the theft, I saw that two of the windows at the back of the car had been smashed and the items taken out of the back window. I included photographs of the damage to the windows.

I can provide images of the missing products if necessary. Please let me know.
